

CyKill™ **NEW IN** Canada

CyKill™ Bromethalin Bait Products

Bromethalin was developed to combat a world-wide perceived problem of rodent resistance to warfarin-like anticoagulant rodenticides. A highly potent neurotoxin rodenticide that provides a lethal dose to rodents in a single feeding. Bromethalin attacks the central nervous system; rodents usually consume a lethal dose within a single night's feeding, with the first dead rodents appearing within 2 days. Available in bait blocks or place packs.

Acute Toxicant: Bromethalin

- Fast acting—bait today and see results tomorrow!
- Palatable bait is preferred over most feeds, food sources and competitive baits
- Rodents stop feeding after consuming a lethal dose; this results in a consumption of 80% less bait than with traditional baits
- No known resistance, neurotoxicant formulation
- Reduced risk of secondary toxicity
- Use as part of Neogen's recommended Rotational Baiting Program

CyKill Place Packs (Pellets)

- Paper pouches contain pellets for effective rodent control
- No need to open pouches; rodents eat through the package
- Each pouch contains 14 gm of pelleted bait

Item#: 112820-CAN - CyKill 100 x 14 gm Place Pack Pail

CyKill™ Blocks

- Multiple gnawing edges
- Highly palatable formulation
- Kills Norway Rats, Roof Rats and House Mice

Item#: 112828-CAN - CyKill 25 x 28.3 g Block Pail

Item#: 112829-CAN - CyKill 64 x 28.3 g Block Pail

Item#: 112830-CAN - CyKill 144 x 28.3 g Block Pail
